

เชื่อมั่นข้อมูลสุขภาพส่วนตัว ไม่รู้ไหว

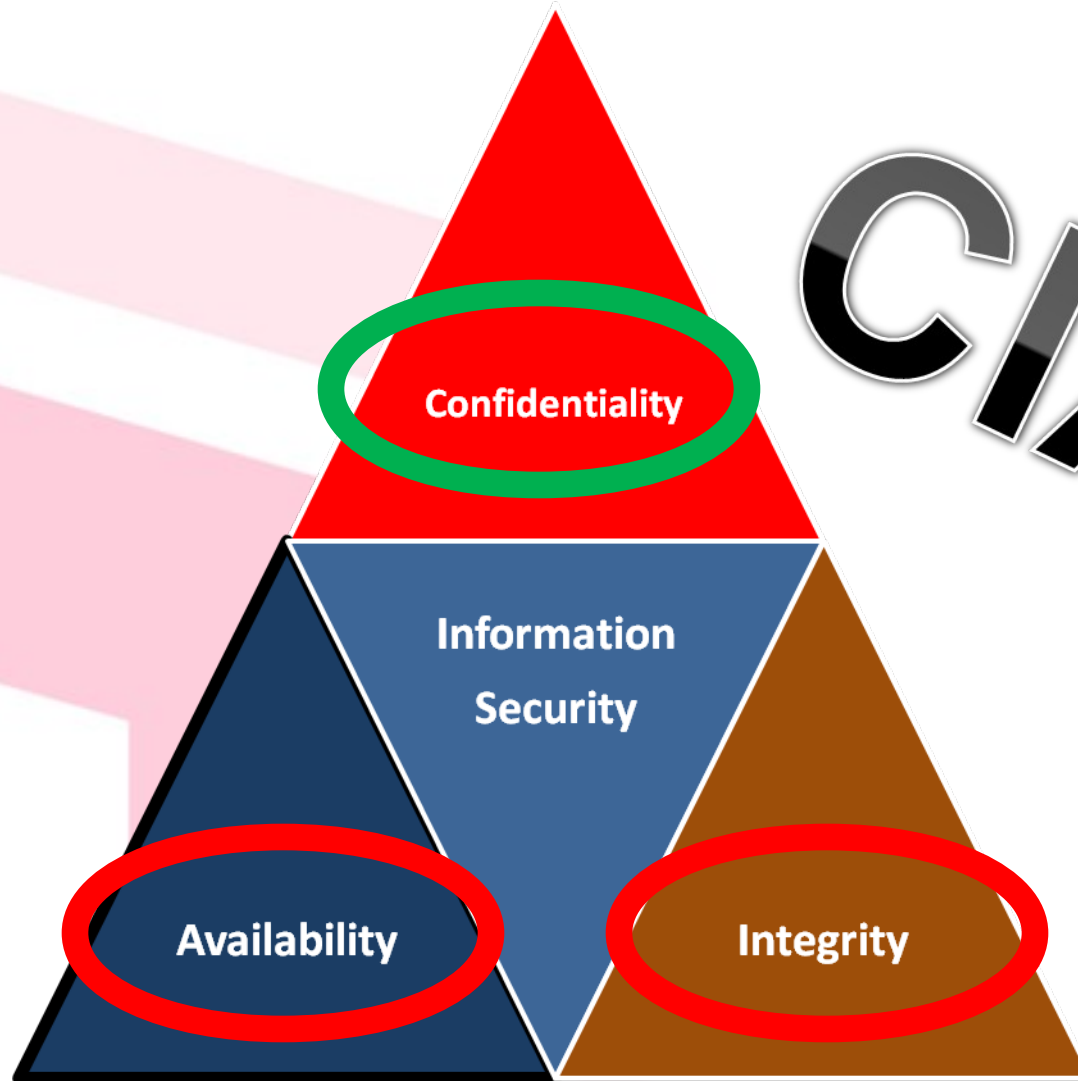

ดร.ชาลี วรกุลพิพัฒน์ CISSP, CISA

หัวหน้าห้องปฏิบัติการความมั่นคงปลอดภัยไซเบอร์
ศูนย์เทคโนโลยีอิเล็กทรอนิกส์และคอมพิวเตอร์แห่งชาติ

โครงสร้างพื้นฐานสำคัญ (Critical Infrastructure)

- Public health
- Basic infrastructure – electricity, water supply
- Defense security services
- Financial services
- Telecommunications
- Transportation
- Some public sectors
- Etc.

CIA in Critical Infrastructure

Application Security in e-health

- Commercial application
 - Patch
- Self-developed application
 - Requirement phase
 - Security in all phases

• One more ... ➔

Application Security (today)

- Outsourcing
 - Requirement phase
 - Security in all phases
 - Contract
 - Software escrow
 - Physical security
 - Legal issues
 - Privacy
 - Etc.

Next Generation Security

- Advanced Persistent Threat (APT)
 - Is Thailand a target?
 - New unknown threats
 - There are a few APT solutions today.
- Cloud-based application
- Outsourcing
- Service Level Agreement (SLA)

Challenges

- Contract & SLA
- Develop criteria, policy, regulation.
- Create awareness program.
- Collaborations among security expert community
e.g. OWASP, CSA, etc.

Thank you
